INFORMATION

Kukicha is a Japanese green tea, made only with twigs, stems and stalks of the Camellia Sinesis (Tea Plant). Slightly nutty flavor. Very low caffeine levels (only about 1/10 of other green teas).

Distinctive Japanese green profile. Cup tends lightly vegetative leading to a beguiling finish loaded with malt.

Jasmine's Secret (Jasmine is our supplier's Sri Lanka friend's wife): Use 2-3 times the normal amount of tea. Brew 2-3 minutes and remove the tea. Superb flavor without the bitter notes.
